

# Acne Treatment and Prevention

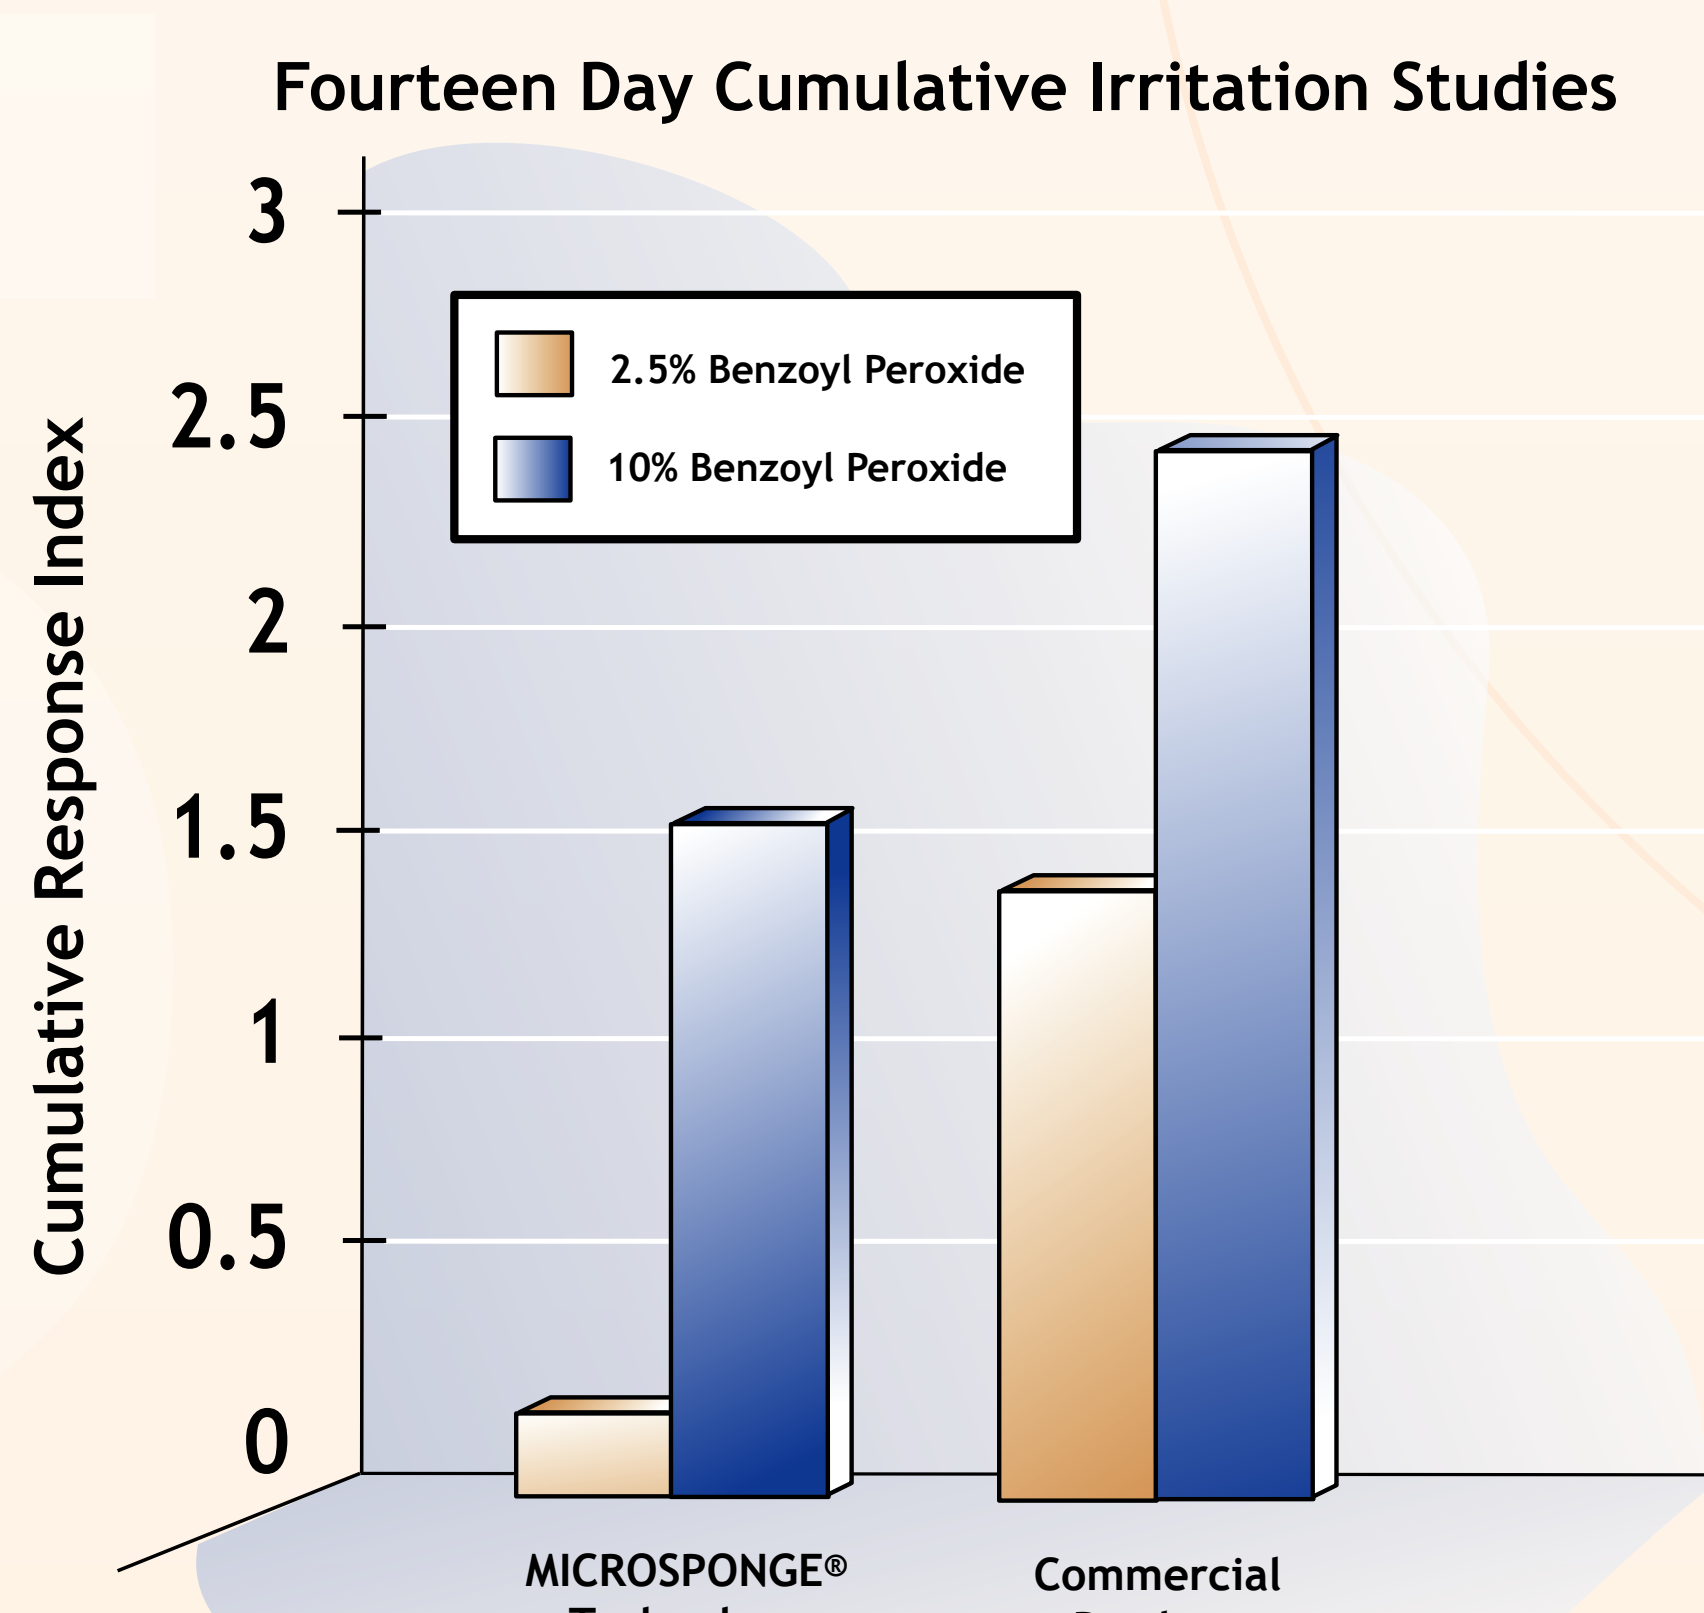

with **MICROSPONGE®** Technology

**MICROSPONGE®** Technology delivers superior performance and improved esthetics in acne applications.

## 2.5% and 5.0% BENZOYL PEROXIDE LOTIONS

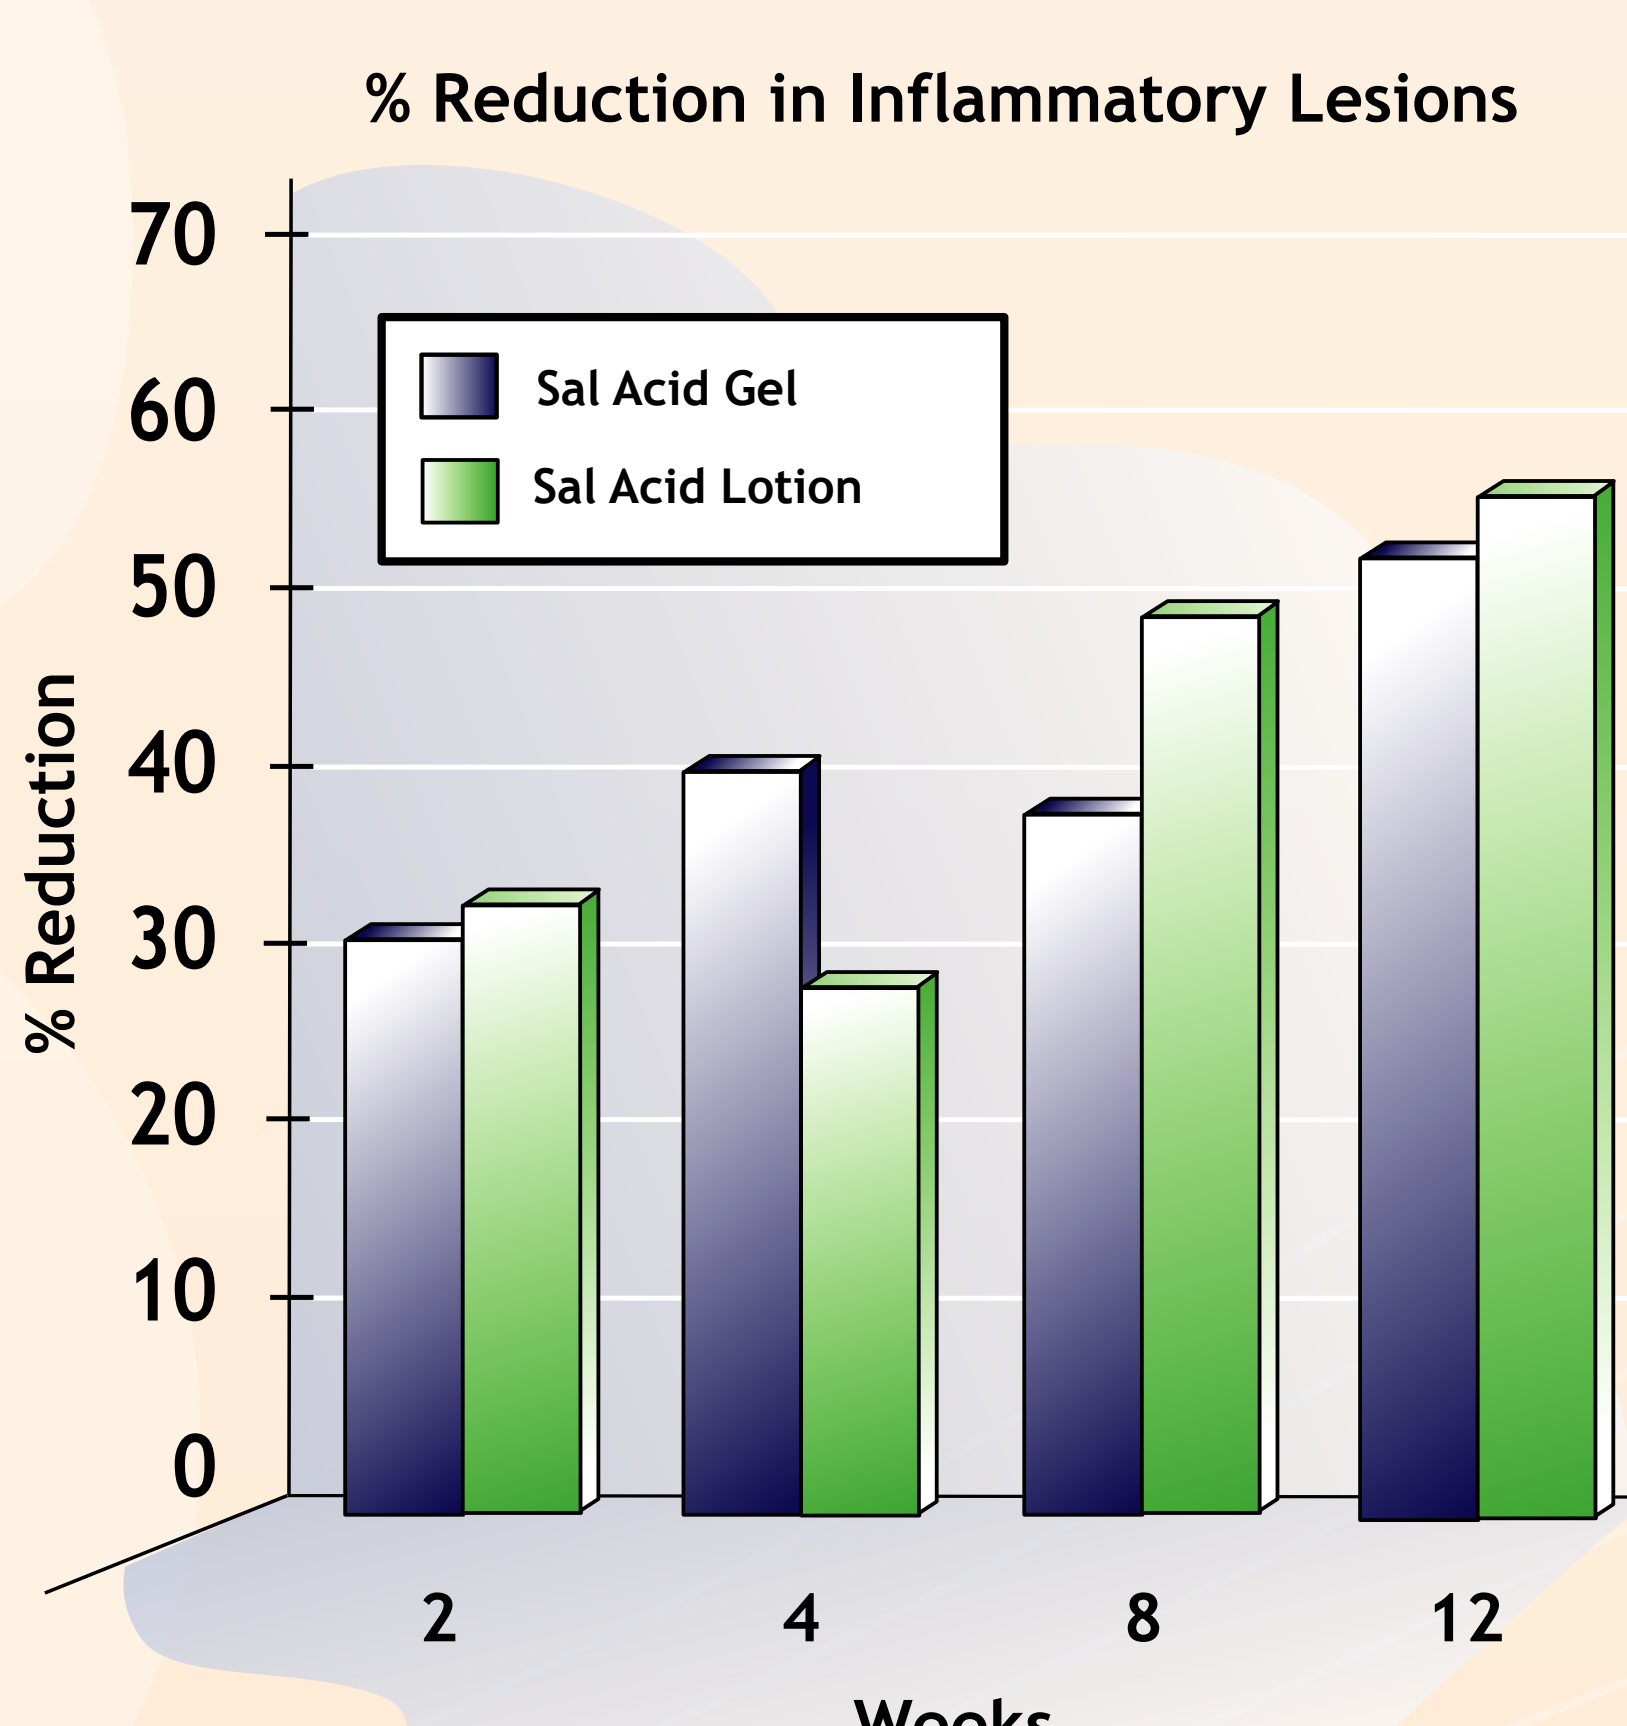

Products containing HBS' entrapped Benzoyl Peroxide at 2.5% active performed equivalent to commercial products at 10% active.

Benzoyl Peroxide entrapped using **MICROSPONGE®** Technology is significantly less irritating.

## 2% SALICYLIC ACID LOTION

Clinically proven to reduce inflammatory lesions by up to 60% within 12 weeks of use.
